## **torrossa** platform

hosts an ever-growing array of scholarly content from a multitude of renowned publishers from Italy, Spain and more.

## **language** teaching

material and educational resources for Italian as a foreign/second language from the most prestigious publishers in the field.

Casalini Libri was established in 1958 with the twin purpose of advancing the profile of Italian culture and learning across the globe and providing a first-class bibliographic search and supply service for academic libraries.

Still a family-run business, we have remained faithful to our original objectives, developing our services to assist publishers and institutions in facing the challenges of scholarly publishing in a changing market.

We created our innovative Digital Division in 2000 to explore the possibilities and challenges of electronic publishing and created an initial digital library.

Casalini Libri is recognised as one of the leading suppliers of publications from across Southern Europe to libraries and institutions worldwide.

We provide an efficient and personalised service, combining the supply of publications with a range of solutions that facilitate selection, acquisition and processing workflows.

The evolution of our original digital library, the advanced Torrossa platform, was launched in 2011, providing visibility and support to academic publishers, while simplifying purchasing, licensing and access for institutions.
